Project

1. Scholarship Management System (Government Portal)

🔗 <https://scholarship.biratnagarmun.gov.np/>

- Designed and developed a government-level web application for +2 scholarship management with role-based access, document submission, and location-based verification under Biratnagar Municipality.
- Integrated Email and SMS notification APIs for real-time communication.
- Managed folder/file access and enhanced user interactions using SweetAlert.

2. Investment Platform

🔗 <https://deshmalagani.com/>

- Contributed to the development of a financial investment platform focused on data-driven insights.
- Worked on backend features, database handling, and secure data processing for investment-related content.
- Integrated Email and SMS notification APIs for real-time communication.
- Manually listed shares and facilitated their accurate and compliant trading processes.

3. Task Management System

 <https://taskmanagement.passionchasers.com.np/>

- Designed and developed a web-based task management application for team productivity and workflow tracking.
- Implemented task creation, assignment, status tracking, and role-based access control.
- Built a structured admin dashboard and notification workflows.
- Developed an attendance management system with a Kanban-style dashboard for efficient task tracking

4. Community Platform

 <https://appanbrahmansamajh.passionchasers.com.np/>

- Currently developing a community-based platform to manage member interactions and organizational activities.
- Working on authentication, content management, and scalable backend architecture.
- Implemented dynamic modules for notices, events, gallery, and team management, with multilingual support (English, Nepali, and Maithili).

Experience:

Full Stack Web Developer – Passion Chasers Pvt. Ltd.

Jul 2025 – Present

- Developed full-stack applications using **PHP (Laravel), MySQL, HTML, CSS (Bootstrap, Tailwind), and JavaScript**.
- Deployed and managed live projects via **cPanel and CyberPanel, Hostinger** handling **FTP and server configurations**.
- Implemented **RESTful APIs**, backend validation, and error handling for robust application performance.

Full Stack Web Developer – MatinSoftech Pvt. Ltd.

Dec 2024 – Jul 2025

- Developed full-stack applications using **PHP (Laravel), MySQL, HTML, CSS (Bootstrap), and JavaScript**.
- Deployed and managed live projects via **cPanel and CyberPanel**, handling **FTP and server configurations**.
- Integrated **Firebase** for real-time database, authentication, and cloud deployment.
- Implemented **RESTful APIs**, backend validation, and error handling for robust application performance.

Web Development Intern – MatinSoftech Pvt. Ltd.

June 2024 – Nov 2024

- Assisted in building **Laravel-based web applications** with dynamic front-end and backend features.
- Gained practical experience with **Git/GitHub**, version control, and collaborative workflows.
- Worked on **database schema design, migrations, and CRUD operations**.
